The BEST way to handle gnarly brush!

The latest Brush Crusher model has all the same features and benefits with additonal loader fits! The BC-4200 is adjustable so you can get the tooth action that you need. It is simple and easy to use and doesn’t require additional hydraulics. It is able to fit the John Deere quick attach and is painted yellow for a great match!

4 Reasons Why
1. Get rid of your bucket
2. Penetrate into the load
3. Grasp, crush and hold just about anything
4. NO additional hydraulics

Stay in your seat and let the BC-4200 do all the hard work for you.

“It’s like having hands at the end of my loader arm!”
