

100 SERIES

Gordon Arteno - Fayetteville, TN

"I absolutely LOVE my TA loader. I'm truly pleased with the performance, more than I actually expected. We have 24 acres that we're putting fence around, and if it wasn't for my loader, we'd never get it done. It hauls our barbed wire, fence posts, bags of cement and all the tools. Plus, we use it for stretching and tightening the fences. It is invaluable! The first day I used my loader - I transported full length telephone poles, several large trees and additional miscellaneous items around the farm. It is doing bigger jobs than I ever thought possible."

Quick to Take Off.
Patented Power-Mount™ system solidly supports the loader in the off position without stands on any surface.

The 100 Series has **Power Linkage** that's designed to achieve maximum dump and roll back angles.

ATTACHMENTS PAGES 46-53

EFFICIENCY YOU CAN MEASURE

Designed to fit tractors up to 90 HP. The 100 Series turns any compact tractor into a real workhorse. The patented design puts quality, strength, good looks and ease of handling into a loader that makes work fun. Select from a line of attachments that are practical, functional and look excellent on your tractor.

- 1 HIGH LIFT** -- Stack what you want, where you want it with a Westendorf loader. The 100 Series loaders range from 7'2" to 11'.
- 2 ATTACHMENTS** -- The most complete line of attachments in the industry. 60" dozer blade attachment shown.
- 3 HYDRA-SNAP™** -- Couple hydraulic hoses in just seconds with this upgrade. The Hydra-Snap™ is a multi-hose manifold that couples all the hoses with one lever.

- 4 EASY HANDLING** -- Westendorf loaders have a low-profile design that keeps the bucket close to the front axle for added power and better stability.
- 5 QUICK-ATTACH** -- The 100 Series loaders come with the patented Quick-Attach system. Removing the bucket is quick and easy. You can change to another attachment in just minutes without the use of tools. Clean open bucket tapered bucket design.

- 6 IT'S ALL ABOUT PRECISION** -- The Precision Joystick gives you the kind of fingertip control that you can only dream about. Standard feature in the loader package on the TA-170, TA-175, TA-185 & TA-180.
- 7 COLOR CODED** -- In-line precision valve allows clean, quick and compact installation, plus the quick connectors are color coded for simple connection.

TA-55

SPECS*

2WD - 10 to 24 HP
 4WD - 10 to 24 HP
 Lift Capacity: 700 lbs.
 A) Lift Height: 86" (7'2")
 B) Clearance: 69" (5'9")
 C) Bucket Roll Back Angle: 15°
 Bucket Dump Angle: 45°
 D) Reach at Max Height: 22"
 E) Reach at Ground Level: 12"
*See Page 6 for measurement details.

BASE PACKAGE:

1-1/2" Lift Cylinders
 1-3/4" Bucket Cylinders
 Hydraulic Power-Mount™
 Hose Kit
 Standard Mounting Kit
 Joystick, Valve & Manifold
 Bucket Gauge Rod
 48" Bucket

OPTIONS:

54" Bucket
 48" Bucket Teeth
 Ballast 3-point Barrel Holder
 Forklift with 42" Teeth
 Brush Crusher
 Hydra-Snap™ Manifold
 Hydraulic Valve Block

RIGHT SIZE - MAX POWER

- Economical loader for the rural home owner
- Good clearance for easy maintenance
- Quickly move snow or dirt, pick up trash, haul feed or small bales, spread gravel, clean horse stables and more
- Excellent lift height that can load into a pickup or trailer
- Extra-wide sub-frame increases visibility while working
- Works with belly mowers and side-mount muffers

POWER-MOUNT™

Mount or dismount your loader in less than two minutes without the use of tools or dangerous stands to use your tractor for other tasks. Standard on all loaders. See Page 4 for details.

HYDRA-SNAP™

Connect and disconnect ALL the hydraulic hoses in just one easy step (optional). Unit is keyed so you can't mix up the hoses during connection. See Page 7.

COOL CAP™

See Page 57.

THE "BOOMER BUDDY"

- Turns your compact tractor into a real workhorse
- Uniquely designed to match your super steer's turning radius
- More power to move things fast and easy, for horse and acreage owners
- Clean bracket design
- Works with most belly-mounted mowers
- Complete line of attachments.

"It's a nice loader. It works fast, and the Quick-Attach bucket is really nice."

THE ULTIMATE LOADER

- Full features in a small loader with over 225 fits
- Complete with low-profile design and Quick-Attach bucket
- Works with belly mounted mowers
- Adjustable front wrap to allow a 6" adjustment up and down or front and back
- A great all-around-the-yard chore loader

Excellent for material handling and snow removal. It has more attachments available than any other loader in its class.

INCREDIBLE LIFTING POWER

- Smooth-shaped loader for the serious weekender
- Ideal for large round bales
- Incredible lifting power in a small, good-looking package
- Scoop snow, move hay, perform dirt work or unload pallets
- Open tapered bucket for quick cleanout

CLEAN BRACKET DESIGN

Bracket design allows for excellent tire clearance. Loader dismounts in less than 2 minutes to free tractor for other tasks.

GOOD VISIBILITY

The low-profile design of a Westendorp loader lets you see clearly what you are doing and where you are driving.

TA-170

SPECS*

2WD - 20 to 70 HP
 4WD - 20 to 65 HP
 Lift Capacity: 1,450 lbs.
 A) Lift Height: 122" (10'2")
 B) Clearance: 98" (8'2")
 C) Bucket Roll Back Angle: 27°
 Bucket Dump Angle: 51°
 D) Reach at Max Height: 18"
 E) Reach at Ground Level: 24"
*See Page 6 for measurement details.

BASE PACKAGE:

2" Lift & Bucket Cylinders
 Hydraulic Power-Mount™
 Quick-Attach
 Hose Kit
 Standard Mounting Kit
 Valve with Manifold
 Cable Control & Joystick
 Bucket Gauge Rod
 60" Bucket

OPTIONS:

Lift Cylinder Upgrade
 Skid-Steer Adapter
 66" & 72" Buckets
 3-Prong Bale Spear
 60" & 72" Bucket Teeth
 60" Dozer Blade
 72" V-Plow
 Forklift with 42" Teeth
 Brush Crusher
 Hydra-Snap™ Manifold
 Hydraulic Valve Block

MORE LOADER WITH LOTS OF EXTRAS

- Mid-sized, high-strength loader with a great profile
- For the everyday heavy user or contractor
- Extra features add professional feel and unmatched performance
- Features power-linkage and tapered bucket
- Reinforced arms have internal I-beam for strength
- In-line precision valve with precision joystick standard

Excellent access to change filters and perform tractor maintenance.

IT'S ALL ABOUT PRECISION

Experience precision like never before with this new precision valve and cable joystick. The ergonomic design fits in the palm of your hand. The adjustable mounting bracket has been carefully designed for maximum operator ease. It is available in floor mount or fender mount models; plus, the connectors are color coded for easy connection.

TA-180

SPECS*

2WD - 20 to 90 HP
 4WD - 20 to 80 HP
 Lift Capacity: 2,880 lbs.
 A) Lift Height: 132" (11')
 B) Clearance: 109" (9'1")
 C) Bucket Roll Back: 16°
 Bucket Dump Angle: 49°
