

BALE SPEARS

- Universal design
- Adjustable to fit different loader widths
- Customize tines to fit your hay handling needs
- Spears are heat treated forged steel
- Full tapered length for easy penetration and release
- Save time and money with the automatic push-off models - Stack Savers I & II
- Snap-Attach™ adapters are included
- Available with pin style or skid-loader adapters

STACK SAVER I

- Bucket cylinders push off the bale quickly and easily
- No third lever required

- FOR LARGE ROUND BALES SS-I
- Patented bale spear has push off without hydraulics
 - Push plate on the Stack Saver I holds bale stationary

STACK SAVER II FOR SQUARE BALES AND LARGE ROUND BALES

- Patented bale lift has push-off without additional hydraulics
- Rear frame holds bale stationary
- No third lever required

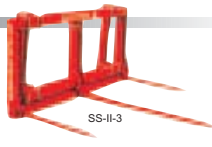

Dennis Trometer
Jamaica, IA

"In my opinion, the best improvement to come along in attachments is the Stack Saver. I stack large round bales 3 high in my shed and had lots of trouble with the top bale sticking. Now with the Stack Saver, I put the top bale on the stack and push it off while I back up the tractor. It has saved me an unknown amount of time and a lot of bad words."

SS-II-3

- One long tine
- Two short tines
- For square or round bales
- Patented hinged frame holds bale stationary as tines release

SS-II-3L

- Three medium tines
- For square or round bales
- Patented hinged frame holds bale stationary as tines release

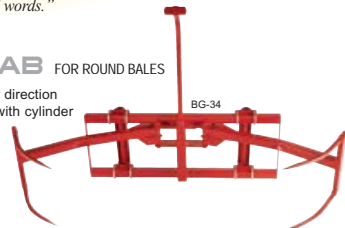

SS-II-4

- Four short tines
- Ideal for handling large quantities of square bales
- Patented hinged frame holds bale as tines release easily

BALE GRAB FOR ROUND BALES

- Stacks bales in either direction
- Offers side clamping with cylinder
- Excellent for stacking bales on end
- Includes cylinder and hoses

SQUEEZER

FOR LARGE ROUND BALES

- Opens wide
- Has plenty of power to hold bale in place
- Tilt the bale from end to side
- Includes cylinders & hoses
- Maximum width is 61"

100 SERIES

- Mounts and dismounts in seconds without tools
- Keeps weight close to the loader, allowing more lift

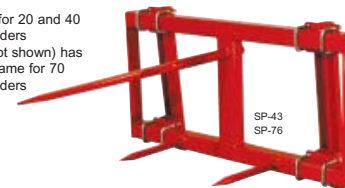

TWO-PRONG

- For round and/or square bales
- Elevated spears keep the spears from going under the bale and cutting the twine

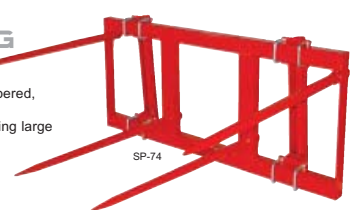

THREE-PRONG

- SP-43 is for 20 and 40 series loaders
- SP-76 (not shown) has a wider frame for 70 series loaders

FOUR-PRONG

- Four large, tapered, forged spears
- Ideal for carrying large square bales

BALE HANDLER

Handles up to 15 small square bales with ease!

15 bales on end
12 bales flat

BUCKET MOUNT

- Single economy spear fits 20 Series buckets
- Align with hole in the bucket's rib and lock in place with a pin

Several hay handling attachments and quick-attach adapters are available for many brand loaders. Choose from standard bale spears, bale spears with automatic push off or the Bale Grab and Squeezor for custom applications.
