

MECHANICAL BRUSH CRUSHERS

BC-3000

- Small mechanical unit for TA-55 and 10 - 25 HP tractors
- No added hydraulics or cylinders
- Independent action utilizes cylinders on loader to open and close

- No more buckets & chains!
- Simple shape and open design allows clear view
- Precise control to move items like culverts or tubing without causing damage

BC-4000

- Medium mechanical unit for 100 series loaders
- No added hydraulics or cylinders
- Adjustable fit installs over end of loader arm

- Independent operation makes handling unruly and lop-sided loads easy
- Crush with power--Manhandle a pile of logs and easily move piles of brush

BC-5000

- Large mechanical unit for loaders
- No added hydraulics or cylinders
- Fits Snap-Attach™ quick-change attachment system
- Independent action utilizes cylinders on loader to open and close
- Optional tie-bar available

HYDRAULIC BRUSH CRUSHERS

BC-6000

- Simple shape and open design allows clear view
- Hydraulic power teeth add power, control and versatility
- Fits Snap-Attach™ system
- Optional tie-bar available

BC-7000

- One-piece unit is 56" wide
- Features hydraulic power teeth that are ideal for the heavy user
- Fits universal skid-steer adapter
- Optional quick-attach finishing teeth (BC-700)

Quick-mount finishing teeth clean up what's left behind after handling trees and brush

MONSTER BRUSH CRUSHER BC-8000

- One-piece unit is 72" wide
- Features hydraulic power teeth that are ideal for the heavy user
- Lower teeth work in unison
- Fits both loaders with Snap-Attach™ & skid-steer adapters
- Optional quick-attach finishing teeth (BC-800)

Ideal for skid steers with cabs

NEW

**NEW - Universal
Brush Crusher fits
skid-steers
and loaders**

V-PLOWS

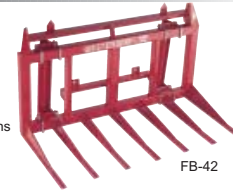

- Patterned after the snow plows you see on highways, they actually roll and throw snow
- Clears a path - for quick, efficient snow removal in those big, heavy snows
- 72" model fits loaders up to the TA-25
- 96" model fits TA-26 loaders and up
- Attaches to 3-point, loader or skid-steer

VP-72
VP-96

FORK BUCKET

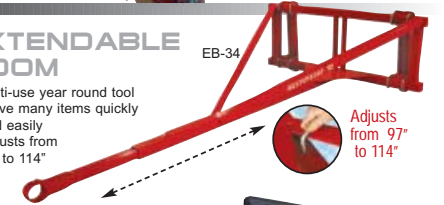

- Seven heavy, square teeth on bottom
- Excellent for silage and cleaning out barns
- Available with GF-20 Sabretooth grapple

FB-42

EXTENDABLE BOOM

- Move many items quickly and easily
- Adjusts from 97" to 114"

EB-34

Adjusts from 97" to 114"

FORKLIFTS

- Small FLM-42 is ideal for the 100 series loaders
- Built-in spill guard
- 42" adjustable teeth
- Includes quick-coupler

FLM-42

FL-42
FL-48

DOZER BLADES

- Built for the heavy-duty user
- 60" blade for smaller loaders
- 84", 96" and 120" heavy-duty blades for larger loaders
- Solid, one-piece shell design
- 1/2" x 6" blade with wear bars
- Excellent for packing silage and heavy dirt work

DB-60

DB-96

HEAVY DUTY FORKLIFT

- 42" or 48" adjustable teeth
- Industrial strength
- Built-in spill guard
- Makes carrying pallets and heavy items more efficient
- Includes quick-coupler, pin style brackets or skid-steer coupler

FORKLIFTS - PLOWS - BLADES

Small or large, we have a forklift attachment to fit your material handling needs. Make carrying pallets and heavy items more efficient. Available with different sized teeth and built-in spill guards. Designed with shorter teeth to prevent the forks from sticking through your pallet and poking adjacent materials. They come standard with a quick-coupler that fits your loader model, pin style brackets or skid steel adaptable brackets (C-19). Westendorf recommends adding the Level UP Advantage (page 4), Hydraulic Self-Leveling for handling a large number of pallets on a regular basis.
