

WL SERIES

Scott Yeargain

Ottawa, KS

"I've hauled everything in this loader but the Queen of England!"

Donald Klindt

Atlantic, IA

When I went shopping for a loader, I did some research, and word of mouth told me that Westendorf was the way to go. Everybody that I talked to only had good things to say, especially if I ever needed replacement parts. So, after getting my WL-42, I can tell you that it is the best loader I have ever seen, and I've seen a few loaders in my time. I like the way it mounts and dismounts, the quick-attach system, and the overall fit and performance. After trying it out, my brother liked it so much, he bought the exact same loader two weeks later. Now we can share attachments and get twice as much done.

The location of the **Frame Torsion Tube** ensures good visibility. Plus, the tube goes through both of the double tapered arm walls to resist twisting.

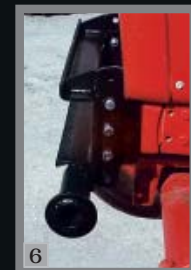

WESTENDORF

NO Stands! On or Off In Less Than 2 Minutes!
Solid welded tower supports loader in the off position.

The WL Series is available with the Hydra-Snap one-lever, multi-hose coupling manifold. Just rotate hand and **couple ALL hoses at once.**

ATTACHMENTS PAGES 46-53

WESTENDORF RELIABILITY YOU CAN COUNT ON

Our Tried & True lineup of Westendorf front-end loaders fits tractors up to 160 horsepower and includes a loader that's perfect for your 2-wheel drive tractor. Amazingly low-profile design. Our loaders are backed by nearly 75 years of experience and are built to maintain the highest resale values on the market today.

1 BIGGER IS BETTER -- High-capacity buckets come standard on WL loaders. Low-profile bucket reinforcements keep material from getting hung up inside the bucket.
2 HYDRA-SNAP™ -- One step Hydra-Snap™ multi-unit coupling automatically lines up hoses correctly every time.
3 LOW-PROFILE FIT -- Low-profile shape fits new aerodynamic tractors allowing clear visibility. Specifically designed for 2WD tractors.

4 TRIPLE SEAL -- Flareless hose and cylinder fittings offer three separate levels of leak defense. They handle high burst pressures and can be used with heavier tubing to withstand the higher hydraulic pressures found in today's newer tractors.
5 SNAP-ATTACH™ -- Westendorf patented Snap-Attach™ system automatically hooks up any Westendorf attachment. Complete line of attachments. See pages 46-53.

6 FRONT MOUNT -- The patented bracket design pushes and secures the loader at the front to minimize tractor stress.
7 SELF-LEVELING -- Add more power, strength and versatility with the mechanical self-leveling upgrade on the WL-42.
COMPONENTS -- To prevent wear, bushings have a grease relief chamber around the diameter to distribute grease evenly. Pins are high-strength steel for durability.

WL-21

SPECS*

2WD - UP to 80 HP
 Lift Capacity: 3,000 lbs.
 A) Lift Height: 120" (10')
 B) Clearance: 94" (7'10")
 C) Bucket Roll Back: 5"
 D) Reach at Max Height: 34"
 E) Reach at Ground Level: 20"
*See Page 6 for measurement details.

BASE PACKAGE:

2-1/2" Lift Cylinders
 2-1/2" Bucket Cylinders
 Hydraulic Power-Mount™
 Hose Kit
 Standard Mounting Kit
 MA-40 Hydraulic Manifold
 Bucket Gauge Rod
 72" Bucket

OPTIONS:

Snap-Attach™ System
 3rd Steel Line
 Back Drag Blade
 Bucket Teeth
 Rotational Indicators
 Hydra-Snap™ Manifold
 Level UP Advantage
 Complete line of attachments to choose from.
See Pages 46-53.

WESTENDORF POWER IN A COMPACT SIZE

- WL-21 or Jifty Loader™ is the perfect fit for smaller 2WD tractors
- The Jifty Loader™ maintains all of the strength and durability that we put into our larger loaders
- Great for moving hay for livestock or cleaning up around the farm

AUTO-LOCK

Loader automatically locks on without leaving the cab. Just rotate locks to release loader for dismount.

I wouldn't trade my Westendorf for two of those other loaders. I have a WL-21, and my brother has a WL-42 and a TA-28. We both love them!

BOBBY PLENGE - Luray, MO

WL-27

SPECS*

2WD - UP to 100 HP
 Lift Capacity: 3,100 lbs.
 A) Lift Height: 144" (12')
 B) Clearance: 120" (10')
 C) Bucket Roll Back Angle: 12"
 D) Reach at Max Height: 32"
 E) Reach at Ground Level: 28"
*See Page 6 for measurement details.

BASE PACKAGE:

2-1/2" Lift Cylinders
 2-1/2" Bucket Cylinders
 Hydraulic Power-Mount™
 Snap-Attach
 Hose Kit
 Standard Mounting Kit
 MA-40 Hydraulic Manifold
 Bucket Gauge Rod
 72" Bucket

OPTIONS:

3rd Steel Line
 Back Drag Blade
 Bucket Teeth
 Rotational Indicators
 Hydra-Snap™
 Level UP Advantage
 84"-112" Buckets
 Complete line of attachments to choose from.
See Pages 46-53.

THE WL SERIES WORKHORSE

- Ready for any chore your tractor can handle
- An outstanding hay loader.
- Low-profile design looks great on today's tractors
- The perfect loader that falls between the WL-21 and WL-42 for fits and features

POWER-MOUNT™

Mount or dismount your loader in less than 2 minutes without the use of tools or dangerous stands. Let the hydraulics do all the work; just drive in and go. Loader automatically locks on.

WL-42

SPECS*

2WD - UP to 160 HP
 Lift Capacity: 4,000 lbs.
 A) Lift Height: 150" (12'6")
 B) Clearance: 130" (10'10")
 C) Bucket Roll Back Angle: 9"
 D) Reach at Max Height: 30"
 E) Reach at Ground Level: 32"
*See Page 6 for measurement details.

BASE PACKAGE:

3" Lift & 2-1/2" Bucket Cylinders
 Hydraulic Power-Mount™
 Snap-Attach™
 Hose Kit
 Standard Mounting Kit
 MA-40 Hydraulic Manifold
 Bucket Gauge Rod
 84" Large Capacity Bucket.

OPTIONS:

Mechanical Self-Leveling
 3" Bucket Cylinder Upgrade
 3rd Steel Line
 Back Drag Blade
 Bucket Teeth
 Rotational Indicators
 Hydra-Snap™ Manifold,
 Level UP Advantage
 Specialty Buckets

Complete line of attachments to choose from.
See Pages 46-53.

POWER PLUS A WHOLE LOT MORE

"I've had my 42 loader for 23 years & haven't had to ever put a weld on it!"

WARREN DIBBLE
 Westbrook, MN

- The WL-42 is our flagship loader with over 500 fits
- The BEST 2WD loader for your dollar
- Strength and durability to provide many years of reliable service
- The WL-42 is a great candidate for your older model tractors
- It's the "Tried & True Loader" and the best 2WD loader for your dollar
- You will enjoy this loader because it is a comfortable loader to operate
- You won't find a more reliable or better fitting loader on the market today
- Features the original patented on and off without stands and the Snap-Attach™ system for quick attachment changes
- Complete line of attachments to choose from.
See pages 46-53.

NORMAN L. WILLEY
 - Willey Farms, Yale, IA

I tried to buy a used WL-42 years ago at a farm sale. I was always outbid over the price of a new WL-21. My banker understood, and in no time I got my new loader. My local dealer said I could pick it up at the factory, and you know, it was fun! Those guys bent over backwards to get my loader to me. That was 15 years ago. It's about time somebody said something about being built in the GOOD OLD USA again. Tell them boys doin' the weldin' to keep up the good work. They got it better than NASA when it comes to steel!

For 22 years my WL-42 loader was my most dependable machine on the farm. It had everything--easy on and off, bucket leveler, grapple hooks, strength of construction and perfect engineering. It was never babied, and it never broke. When I retired and sold the farm machinery, the tractor with the Westendorf loader brought a good price.
